

Custom Shape foam board diecut template size

*If you have multiple cutouts required on foam board. You may scale your artwork and arrange them into the following sizes, **580mm x 580mm**, **900mm x 580mm** and **1180 x 580mm**. This will allow the saving of the costs when ordering as well as a more convenient transportation when you collect your order. Do make sure that there is a **10mm** spacing all around each design to make sure that the cutting is done as per your requirements.*
